26 Juni 2018 pukul 12.04

Yogyakarta, June 26, 2018

Dear Rilya Rumbayan,

Greetings from Yogyakarta,

We are pleased in letting you know that your paper entitled :

“A Study into Flexural, Compressive and Tensile Strength of Coir-Concrete as Sustainable Building Material”Author(s) : **Rilya Rumbayan**

is **ACCEPTED WITH CONDITIONS** to be presented in The 4th International Conference on Sustainable Civil Engineering Structures and Construction Materials (SCESCM) on 5-7 September 2018, at Royal Ambarrukmo Hotel, Yogyakarta. Please take into consideration all our comments and proceed with the corresponding modification to your manuscript.

Comments and Evaluations :

1. The paper is grammatically well written.
2. There is missing information about the design mix proportion of the coir-concrete in the paper. Readers can hardly understand how much coir fiber used in the study compared to normal concrete mix proportion. The missing mix proportion makes the justification of the unit weights of coir-concrete as discussed in section 3.1 difficult. No statement about the treated and untreated coir is found even though these are one of the objectives.
3. The author(s) may consider reducing figures presented. The title of figure should be placed in the centre of the figure
4. The author(s) may consider adding references to enrich the literature review of this study.

For the next step, please upload the modified manuscript and response towards reviewer's questions and comments in 2 columns table format. First column should contain the reviewer's questions which will be answered in the second column. The modified manuscript and review response should be submitted in **July 15, 2018** through our website system <http://tsipil.ugm.ac.id/conference/submission/>

We would like to remind you for the following important schedule:

Early bird registration: before July 15

Deadline for final manuscript: July 15

Conference day: September 5-7 (Wed-Fri)

Please kindly register yourself in your earliest convenience through our website system <http://conference.tsipil.ugm.ac.id/scescm/registration/>

Kind Regards
Chair,

Dr. Ali Awaludin

Department of Civil and Environmental Engineering

Faculty of Engineering, Universitas Gadjah Mada
